ACROSS BORDERS... ACROSS DISCIPLINES

Meeting Point Functional Layers or MPFL is a coordinated research network of the University of Applied Sciences Kaiserslautern (Germany), the University of Hasselt (Belgium), the INE-SC-MN at the University of Lisbon (Portugal) and the Max-Planck-Institute for Polymer Research Mainz (Germany) funded by the DAAD "to enable students, graduates, doctoral candidates, post-docs and university instructors to study, work and conduct research".

The establishment of this competence centre brings together scientists from engineering, microsystems and nanotechnology, applied life sciences, chemistry, physics, biotechnology and medicine to work together in the broad field of functional layers.

Aims of the network

- to strengthen the partnerships
- to conduct collaborative research projects
- to provide organizational infrastructures for research exchanges
- to support research visits
- to enhance research experience and capacities
- to link research and education
- to develop joint degrees and doctoral programmes
- to intensify student exchange

Who can join?

The network is open to all members of the participating institutions.

ACTIVITIES

THE NETWORK
“MEETING POINT
FUNCTIONAL LAYERS“
OR MPFL OFFERS A
STUDENT EXCHANGE
PROGRAMME BETWEEN
THE PARTICIPATING
INSTITUTIONS.

Take the opportunity

- to learn more about other countries, the people and their culture
- to establish international contacts
- to develop your intercultural competence

Who can apply?

Students from University of Applied Sciences Kaiserslautern, University of Hasselt and the University of Lisbon

What is offered?

- summer schools
- workshops
- internships, bachelor theses, master theses

Is there financial support?

The project provides travel grants and/or living expenses allowances for participants. Please contact us for details.
