

How do I get a PIN?

1. Log in to the Discovery system:

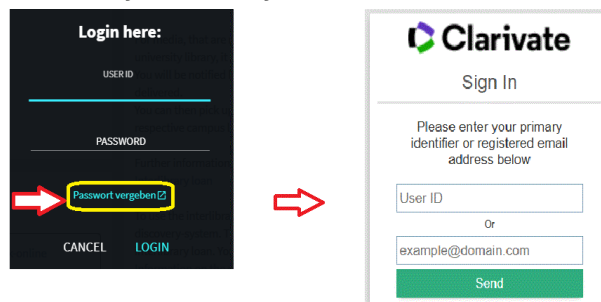

<https://hbz->

hkl.primo.exlibrisgroup.com/discovery/search?vid=49HBZ_HKL:VU1&lang=en

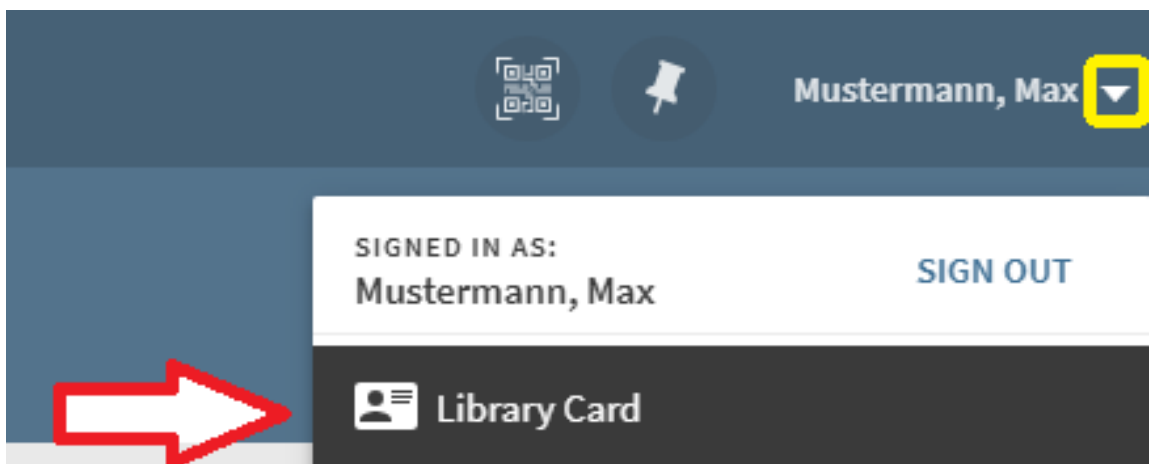

If you don't have a password yet:

- In the login dialog, click the “Passwort vergeben” link to set up a password for your library account

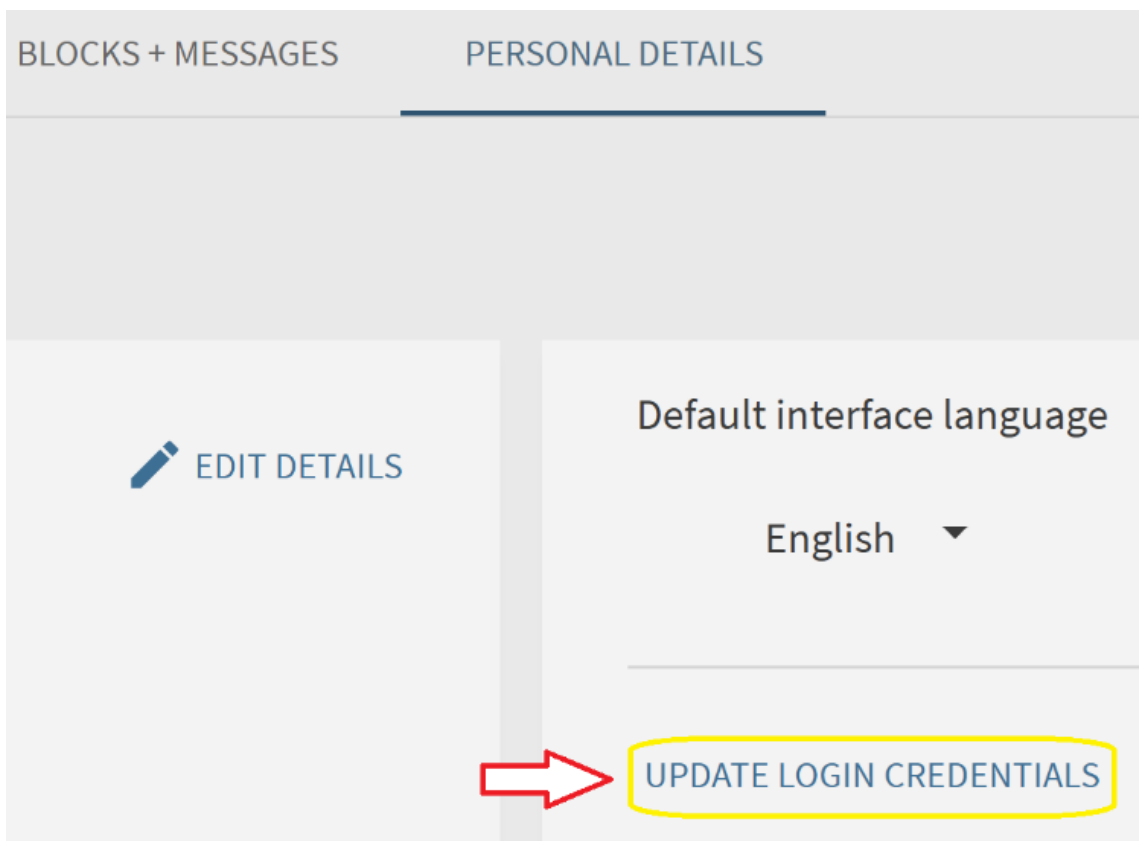

- Your User ID is the barcode number on the back of your CampusCard. Alternatively, you can use your university email address for this process. Then follow the instructions in the email you receive.

2. Select the menu item „Library Card“

3. On the “Personal Details” tab, click “Update Login Credentials”

4. Enter the desired PIN and click Save

Please note:

- The PIN may only contain digits.
- You can choose any length for your PIN; we recommend 4 digits.
- The “Old Password,” “New Password,” and “Confirm Password” fields can be left blank.
- There is a delay between the assignment of the PIN and activation. Access is guaranteed no later than the following day.

Update Login Credentials

Pincode: 1234 Example Pincode

Old Password: can be left blank

New Password: left blank

Confirm password: blank

CANCEL SAVE

5. Your PIN is stored in your library account and can be used to unlock the door at the terminal by the entrance. During Open Library hours, you must scan the barcode on your CampusCard at the terminal and then enter your PIN. The door will unlock for a few seconds, and you can enter.
